## PAID SHOPS VISIT

WENT THROUGH THE MISSOURI  
PACIFIC PLANT LAST  
AFTERNOON.

## BUSY IN ALL THE DEPARTMENTS

There Are Two Hundred Cots, All  
Scrupulously Clean, Where the  
Machinists Sleep—Kitchen  
Was a Revelation.

To one who has never visited the  
general machine shops of a big rail-  
way system a trip through the one  
and one-half million dollar shops of  
the Missouri Pacific railway located  
in our midst would indeed be a re-  
velation.

Ex-Mayor Babcock, Alderman Mc-  
Kenzie, Sheriff Henderson and A. P.  
Stanley were shown through this big  
plant yesterday afternoon. They were  
met at the entrance by one Master  
Mechanic M. J. McGraw's clerks and  
taken through his office, where an  
army of clerks were as busy as could  
be. The sight of this busy lot of men  
indicated that a vast amount of busi-  
ness was being transacted.

From the business office to the im-  
mense storeroom below was the next  
move, and from there to the machine  
shops. This was a noisy place, but  
a busy one. This is the largest build-  
ing on the grounds. All the machin-  
ery was in operation. The men ap-  
peared to know what they were doing,  
and are as intelligent as the men in  
any other department.

From there the visitors were es-  
corted to the sleeping department,  
where possibly 200 cots are arranged  
in rows throughout the immense  
building now being used for the sleep-  
ing quarters.

The size of the building permits  
the cots to be so arranged that no  
crowding is necessary. The cots were  
sheeted and blanketed, and  
looked quite inviting.

The commissary is well arranged,  
well stocked and well kept. The  
kitchen is not surpassed by any in  
Sedalia. It is immaculately clean  
and orderly, and has ample capacity  
for its present use.

From there to the coach shops the  
visitors proceeded. Here the ham-  
mer and saw were vying with each  
other as to which could accomplish  
the most work. A fine lot of men.  
Many of them young fellows and  
utilizing the saws and hammers.

From the car shops to "Dante's In-  
ferno," the blacksmith shop, was the  
next step. It was awfully hot, but  
the workmen did not appear to mind  
it. Here, too, as good looking a lot  
of men may be found as in any other  
department. Some of these young  
fellows look as if they could make  
Jeffries and the nigger look like thirty  
cents, and in the first round at that;  
but none of them, we dare say, would  
condescend to fight the nigger.

From here to the various store-  
rooms, where thousands of dollars' worth  
of material of all sorts is stored for  
use as occasion may demand.

Then to the power plant, where  
all of the power, steam, electricity  
and compressed air is developed. Mr.  
Mitchell is in charge. He explained  
every feature of this department and  
the operation of these immense en-  
gines. It is indeed an interesting  
sight.

Next a visit to the immense boiler  
rooms, where the men behind the  
shovels get busy. This immense bat-  
tery of boilers is fed by self-feeders.  
Just so much coal can be used by  
this system. There is no waste; it  
is all used.

The visitors are especially grateful  
to Mr. McGraw, Mr. Mitchell and Mr.  
Jones, superintendent of the black-  
smith shop, for a most enjoyable  
and instructive 2 1/2 hours' entertain-  
ment.

The business men of Sedalia owe  
it to themselves to visit this busy  
place. Mr. McGraw invites you, and  
now is a good time, as every depart-  
ment is in full operation.

## The Burning of a Barn.

Charles Kleffer's barn, Main street  
and Grand avenue, caught fire at 2:20  
o'clock this afternoon and was totally  
consumed.

## Married By Judge Hoffman.

Weden Ewen, of Lamotte, and  
Mrs. Susan Wills, of Ladoga, Ind.,  
were married by Judge Louis Hoff-  
man at the court house this after-  
noon.

## Cousin of Charles McEniry.

Samuel Douglas McEniry, a United  
States senator, who died at his  
home at New Orleans, La., Tuesday  
morning, was a second cousin of  
Charles McEniry, the well known  
stockman of this city. Although the  
latter spells his name with an "i"  
instead of "e."

## Recovered Bodies of Drowned.

Annapolis, Md., June 29.—The bod-  
ies of Mrs. Jos. Bowyer, daughter-in-  
law of the superintendent of the United  
States naval academy, and two midship-  
men, S. M. Mason and G. E.  
Thomas, who were drowned yester-  
day, were recovered her today.

## THIEVES AT WORK

NORTH PROSPECT, QUINCY AND  
STEWART AVENUES VIS-  
ITED LAST NIGHT.

## TOOK A WATCH FROM WILL RUSS

Carried a Trunk From the Home of  
G. G. Thedick—Failed to Gain  
an Entrance at Home of  
J. E. Rector.

Amateur thieves visited North  
Prospect, Stewart and Quincy av-  
enues last night, gaining entrance to  
two homes and falling at a third,  
but the total amount of booty taken  
amounted in value, to 98 cents and  
that not in cash, only a Waterbury  
watch.

The home of Will Russ, of the firm  
of Lumpe & Russ, living at 406 North  
Stewart avenue, was first visited, en-  
trance being gained through a win-  
dow. Mr. Russ missed nothing ex-  
cept a pair of trousers, which he  
found on a post one block away,  
minus a Waterbury watch.

G. G. Thedick, a Missouri Pacific  
carpenter, residing at 308 North  
Quincy avenue, was next visited. En-  
trance was gained in a similar man-  
ner. The intruder carried a trunk  
out of the room occupied by Mr. The-  
dick and wife, but took nothing.

At Mr. Russ' home a large piece  
of timber was left in the house, while  
at the Thedick home the intruder left  
a note.

The same individual, it is believed,  
tried to gain entrance to the home  
of J. E. Rector, 401 North Stewart  
avenue, but failed. One of the family  
was awakened about 1 o'clock this  
morning and saw a man on the out-  
side. The intruder was frightened  
away.

## TO TAKE EUROPEAN TRIP

Mrs. Magdalene Battersby Will Sail  
on July 6.

Mrs. Magdalene Battersby went to  
Shelbina, Mo., this morning to spend  
a few days with her son, Dr. R. Stan-  
ley Battersby, before leaving on a  
trip to Europe.

Mrs. Battersby will return to Sed-  
alia tomorrow night, and on Saturday  
will take her departure for her trip  
abroad.

She will be accompanied by her  
daughter, Mrs. H. O. Foraker, and  
husband, as far as St. Louis, leaving  
the Mound City in time to catch her  
steamship, which is scheduled to sail  
from New York on July 6. She will  
be absent three months.

Mr. and Mrs. Foraker will remain  
in St. Louis for several days, and  
from there will go to Galesburg, Mat-  
toon and Kewanee to visit the vari-  
ous stores of Bondi Bros. & Co. They  
will be away for two weeks.

## DIDN'T COME AFTER NEGRO

John A. Jones, Said to Be Wanted in  
Oklahoma for Burglary.

John A. Jones, a negro who was  
arrested here last week for the au-  
thorities at Bartlesville, Okla., where  
he is wanted for burglary and larceny,  
was arraigned before Justice J. B.  
Rickman this morning, charged  
with vagrancy.

Jones declared he was not ready  
for trial and was committed to jail  
in default of \$500 bail for trial Sat-  
urday.

Efforts are being made by a local  
attorney to secure Jones' release, but  
so far they have failed. The Oklaho-  
ma authorities have not yet secured  
an extradition for the negro's return,  
which accounts for his still being  
here.

## REV. FR. B. R. M'NAMEE OFFICIATED

Ceremony Performed at St. Patrick's  
Church at 4 O'clock Tuesday Af-  
ternoon—Bridal Couple De-  
parted Last Night.

Mr. M. D. Cramer, of Louisiana,  
Mo., and Miss Nora Louise Smith, of  
this city, were united in marriage at  
the parsonage of St. Patrick's church  
by Father McNamee, at 4 o'clock  
Tuesday afternoon. The wedding was  
a quiet affair, only a few intimate  
friends and relatives being present.

After the ceremony a luncheon was  
served at the home of the bride's  
parents, Mr. and Mrs. J. B. Smith,  
1805 South Ohio avenue. Besides  
a few relatives, the invited guests  
were Rev. and Mrs. F. Y. Campbell  
and daughters, Misses Minnie Hud-  
leston, of Jefferson City; Ella Gen-  
try Pratt, of Louisiana, and Mr. and  
Mrs. T. F. Cramer, of Slater.

The house was beautifully deco-  
rated, the color scheme in the dining  
room being pink and white, and in the  
other rooms yellow and white.

Many beautiful presents of silver-  
ware, cut glass, linen, etc., were re-  
ceived by the young couple.

Mr. Cramer is a man of sterling  
character, and will no doubt make a  
model husband; while his bride, it  
can truthfully be said, is one of the  
most popular and best loved young  
ladies of this city, and was formerly  
employed as stenographer for the  
Lamy Manufacturing company.

Mr. and Mrs. Cramer left at 8:05  
for Louisiana, where they will reside  
in the future. They will carry with  
them the love and best wishes of  
every acquaintance.

## THE NEW MANAGER IS HERE

Paid the Democrat-Sentinel Pleasant  
Visit Today.

W. E. Cundiff, who is to be busi-  
ness manager of The Ruralist under  
the new management, is here from  
Topeka, Kas., and favored the Dem-  
ocrat-Sentinel with a call today.

Mr. Cundiff, a brother of John J.  
Cundiff, editor of the Capital, was  
formerly connected with the press of  
Sedalia, but for several years past  
has been field man for the Capper  
publications at Topeka, and knows  
the farmer and stock business from  
A to Z.

Mr. Cundiff will likely have his  
office in the O'Meara building, on  
Ohio avenue, from where he will  
handle the circulation and advertis-  
ing of The Ruralist.

The Democrat-Sentinel welcomes  
Mr. Cundiff back to his first love, the  
Queen of the Prairies.

## DESERTED HIS FAMILY

Fred Sheridan, a White Man, Pleaded  
Guilty.

about 28, was arrested at Leeton  
Tuesday afternoon by Deputy Const-

charge of abandoning his wife and  
child.

entered a plea of guilty to the charge.  
The judge fined Sheridan \$20 and  
costs and sentenced him to six  
months' hard work on the roads, but  
stayed the latter, with the under-  
standing that the man will support  
his family.

## SEVERAL SOCIALS

NO FEWER THAN FIVE GIVEN AT  
DIFFERENT PLACES IN SE-  
DALIA LAST NIGHT.

## WAS A GOOD TIME FOR ICE CREAM

Broadway Presbyterian, First M. E.,  
the M. E. South, Violet Camp,  
M. W. of A. and East Sed-  
alia Baptist.

More than \$14 was realized last  
night from an ice cream social given  
by the young people's society of the  
Broadway Presbyterian church, at the  
home of Ed J. Evans, on East Broad-  
way.

The sum of \$11 was realized from  
the social given by the Hi Tang Mis-  
sionary society of the First M. E.  
church at the home of Dr. and Mrs.  
E. D. Holbert, on West Seventh  
street, last night.

bors of America, auxiliary to the M.  
W. A., gave a social at the home of  
Miss Bertha Dean, 240 South Ver-  
mont avenue, last night, at which a  
large crowd attended, but Miss Dean,  
when asked what sum had been real-  
ized, stated that the committee in  
charge had decided not to tell that.

A large crowd attended the social  
at Mrs. H. L. Shacklett's, Eleventh  
street and Carr avenue, given by  
Mrs. W. J. Kemp and her ten help-  
ers, last night. The net receipts  
were in excess of \$10—very good,  
considering the distance out.

The Baptist Young People's Union  
of the East Sedalia Baptist church  
gave a delightful and well attended  
social at the church parlors last  
night, during which the following pro-  
gram was carried out:

dalia Automobile club, called to arrange  
for participating in the Fourth of  
July street parade.

ders to the police to arrest any one  
doing such work, and with the re-  
ward offered the practice seems on  
the verge of being discontinued.

## THE DAY NURSERY

TWENTY-FOUR CHILDREN ARE  
BEING CARED FOR BY THE  
MATRON TODAY.

## ARE AS HAPPY AS THE DAY IS LONG

Finances of the Institution Are Al-  
most Exhausted — A Contribu-  
tion Is a Bread Cast Upon  
the Waters.

The Melita Day Nursery, estab-  
lished some months ago, is proving a  
splendid success, as is attested today  
by a visit at the institution, where  
twenty boys and girls and four babes  
are under the care of the matron.

The little tots—as happy and con-  
tented as any of Sedalia's children—  
amuse themselves playing on the  
grounds, swinging, playing in a  
sandbox, and last, but not least,  
making pieces of kindergarten work.

This latter department was inau-  
gurated Tuesday and today were  
placed on the walls of the Nursery  
building the different objects made  
by the children, showing how useful  
this is in connection with the insti-  
tution.

The Nursery is a wonderful thing  
for Sedalia. Two months ago a one-  
year-old child, almost at the point of  
death from starvation, was admitted  
to the Nursery. The child was so  
weak he could hardly move. Today  
he is bright and healthy for a child  
of his age, and seems to take a su-  
perhuman delight in the Nursery and  
surroundings.

This is only one of many cases  
brought to the care of the Nursery  
people, and the good that is being  
done can only be learned by one fa-  
miliar with the place and those in  
charge.

The Nursery's finances are almost  
exhausted, and anyone desiring to  
give towards this worthy cause may  
do so by turning in their subscrip-  
tions to the Democrat-Sentinel. It  
will be as bread cast upon the  
waters.

## WILL WED SEPTEMBER 1.

The Bride-to-Be Has Sister Residing  
in Sedalia.

Miss Till Rankin, of 422 South  
Quincy avenue, received a letter  
Tuesday announcing the approaching  
marriage of Miss Berdona Vessierat,  
of Alliance, O., who is well known in  
Sedalia, to Raymond Taylor, of Alli-  
ance, the wedding to occur on Sep-  
tember 1.

Miss Vessierat is a sister of Mrs.  
M. C. Madden, of this city, who is  
now touring Europe, and last summer  
visited in Sedalia as her guest. While  
here she made legions of friends, all  
of whom will join in wishing her a  
long and happy married life.

Miss Rankin and mother, Mrs. Al-  
bert Rankin, will attend the wedding.

## NO BULLETINS OF FIGHT

Manager Frank E. Gibbons, of West-  
ern Union, So Advised

General Manager Brooks, of the  
Western Union Telegraph company,  
yesterday notified Manager Frank E.  
Gibbons, of the local office, that the  
company would not furnish news bul-  
letins, either by special wire, by mes-  
senger or on its tickers relating to  
the progress of the Jeffries-Johnson  
prize fight at Reno, Nev., July 4.

Numerous applications have been  
made for such service in various  
parts of the country, but the West-  
ern Union wants none of it.

## IT'S TO A FINISH

RICKARD DON'T THINK COMING  
FIGHT WILL LAST 45  
ROUNDS.

## JOHNSON'S FRIENDS ARE JUBILANT

Workout of Black Yesterday Gives  
Them Much Cause for Hope—Bet-  
ting Is Still Greatly in Jef-  
fries' Favor.

Reno, Nev., June 29.—Tex Rickard  
today, talking of the rumor of  
a plan to take off one  
round of the Johnson-Jeffries fight,  
said: "It is practically a fight to a  
finish as it is, and very few expect  
it to go the full forty-five rounds al-  
lowed for it."

The gloves, specially made for this  
battle, arrived today. There is much  
rejoicing in Johnson's camp over his  
splendid workout late yesterday.  
Gov. Dickinson is expected to go  
out to Jeffries' camp today to see the  
big fellow in action.

Betting Is Now 8 to 5 on Jeffries.  
Chicago, Ill., June 29.—Betting on  
the Jeffries-Johnson fight here is  
brisk. Jeffries is the favorite at 8  
to 5.

Burns Says Johnson Will Lose.

tralia. Burns declares that Johnson  
will get the beating of his life Mon-  
day, but admits

RANK FEDERALISM.  
"When in the course of human  
events," etc. What does it mean now-  
adays? The integrity of Rhode Island  
and Delaware is assured. But when  
American citizens in richer and in  
more populous districts are told, un-  
der threats, that they must continue  
as territories unless they submit to the  
supervision, as to the condition  
under which their statehood is given,  
upon political restrictions, what is  
the answer?

Arizona and New Mexico for years  
have been entitled to statehood. Many  
bills have been introduced in con-  
gress to this end. All have failed. A-  
yet it comes in latter years when  
insurgents are rampant, almost  
democratic, under terms, they may  
be admitted to that which they are  
entitled to.

Can you make, under the constitu-  
tion, a group of Americans mere "as-  
sals of a federalized system? Where  
did the United States get its right of  
existence? Was it not from the origi-  
nal thirteen colonies. And it was  
grudgingly given. Each new state  
made its own laws. They were ac-  
quiesced in. Each state, emerging  
from the wilderness, should be given  
the same right.

However, in the exigencies of an  
approaching campaign, under duress  
New Mexico and Arizona were given  
statehood—if their proposed constitu-  
tions stand the censorship.

THE INSURGENTS.  
J. E. Chamberlain, an experienced  
newspaper man, residing in the east  
for many years, is writing political let-  
ters from the northwest to the Boston  
Transcript.

He says that insurgency in Minne-  
sota is a much quieter affair than it  
is in Iowa, but it is none the less  
robust for making less noise. The  
resident hurt himself instead of  
helping Tawney in his Winona  
speech, Mr. Chamberlain says, and he  
adds that the insurgent republicans  
in the district are perfectly willing  
to support the democratic candidate  
for congress, and may beat Mr. Taw-  
ney.

A HORSELESS FUNERAL.  
It has come at last. Kansas City  
papers are boasting of the latest nov-  
elty in that bustling city—a horse-  
less funeral.

A few days ago a chauffeur was  
killed in his machine, and when his  
body was borne to the grave it was  
in an automobile ambulance, which  
took the place of a hearse. There  
was not a horse-drawn vehicle in the  
long procession that followed it, the  
relatives and friends occupying mo-  
tor cars of all descriptions.

The Hon. Hadji Mohammed Jama-  
ul Kiram and other jamaloos too  
numerous to mention, sultan of Sulu,  
one of Uncle Sam's insular posses-  
sions, in which the said individual  
practices promiscuous polygamy, is  
on his way to this country. At one  
time he proposed to Miss Alice  
Roosevelt, now Mrs. Longworth, then  
on a visit with the Roosevelt party  
to his former possessions, benevo-  
lently assimilated by the United  
States. Miss Roosevelt, however, de-  
clined the plurality. The political  
history of her distinguished father  
had impressed her with the fact that  
polygamy is a dangerous thing.

The Hon. Hadji, it seems, is coming  
to this country to dispose of the  
crown jewels, a string of pearls val-  
ued at \$250,000, the proceeds of which,  
it is stated by him, will be used to  
ameliorate the condition of his peo-  
ple. This ought to set a pace for  
some of the crowned heads of Eu-  
rope. The next thing we know the  
Akound of Swat will be coming over  
to trade off a few bushels of dia-  
monds to buy sun umbrellas to clothe  
his subjects.

Why should the congress vote Jus-  
tice Moody a salary for life upon his  
retirement? He is understood to have  
made the proposal to resign—if his  
yearly stipend were continued. Other-  
wise, having been appointed for  
life, he will probably continue to  
draw the salary and perform none of  
the duties of his office, as has been  
the case for the past year or longer.  
He has been a member of the court  
but three and a half years. Previous  
to this he was a member of the  
cabinet and before that a member of  
congress. Had illness prevented him  
from discharging his duties then and  
compelled his resignation he surely  
would not have expected a life pen-  
sion. The constitutional protection of  
members of the supreme court is lia-  
ble to abuse, it seems, like many other  
clauses of that much stretched in-  
strument.

In Iowa the politicians are howling  
because a primary in June catches  
the farmer at his busiest season and  
cuts down the vote, while in Illinois  
the shriek is that a September pri-  
mary finds them in the middle of  
their wheat fields and unable to go  
to the polls. But the fact remains  
that for a man who wants to take a  
day off for any purpose without ask-  
ing the consent of anybody on earth,  
commend us to an Iowa, Illinois or  
Missouri farmer, who is as independ-  
ent as God makes them.

With the admission of New Mexico  
and Arizona the national flag will  
have forty-eight stars. There are but  
three territories left under American  
rule—Alaska, Hawaii and Porto Rico.  
At the rate of American immigration  
to the former it may not be long be-  
fore it will be a candidate for state-  
hood honors.

The verdict in the sugar trust  
cases was received with applause,  
but the universal practice of letting  
the rich criminal out on bail while  
the poor one remains in prison has  
prevailed.

From Congressman Dalzell's atti-  
tude in favor of more liberal house  
rules one gets the impression that  
he does not expect to be a member  
of that committee in the next con-  
gress.

"Right Back at You," She Says, and Hung Up a Few Placards Herself—If That Doesn't Cure Them She Will Try a Bat.

Newark, N. J., June 29.—When Mrs. Frank Bower of 425 South Tenth street goes to a ball game nobody has to tell her why the pitcher is not arrested when he hits the batter. She has three children among her assets, and among her liabilities are neighbors who are of the opinion that it is a sin and a shame that Mrs. Bower, in leaving home for the ball game, should confide her two younger children to the care of their 8-year-old sister.

For some time they have been so neighborly that Mrs. Bower became weary of their solicitude for the welfare of her children. So she hung out on the pulley clothes line in her back yard a placard which read:

NEIGHBORS:

### WOMEN LEARN TO USE GAS.

A new way of earning money has been opened to women by the gas companies of the large cities. They are sent to private houses and apartments to explain the use of the gas range and of the meter with the object of teaching economy in the use of gas. According to one of these teachers it is a position requiring tact as well as the special knowledge they are paid to diffuse.

"It is always possible to make a woman feel humiliated when you call to show her how to do what she thinks she knows how to do herself," one of the gas emissaries is quoted in Popular Mechanics as saying about her work. "Possibly she has complained to the gas company that the stove will not work properly."

"The reason may be that she does not know how to use it, but it will not do to tell her so. So we proceed to find out the reason and do it so adroitly that she still believes the fault was with the range and not with her, but at the same time has learned enough to make certain that there will be no future complaint."

Where the idea of this new department originated is not known. Chicago has just claimed the credit of it, but the gas companies of Philadelphia, New York and other cities also have such departments and advance counter claims. In Philadelphia the staff of women go from door to door or make special visits if called.

Among the bits of information handed out by the teacher is the

decoration that many women make the mistake of trying to light the gas at the same time they turn it on. A second or two should be allowed to elapse before applying the match so that the gas can expel the air. This makes the burners work better and saves gas.

Another economical expedient to which many women pay little attention is the simmering burner. When a saucepan no longer needs the entire heat of a burner it is only necessary to transfer it to the simmering burner to leave the larger burner free for something else and to save gas.

### SUNFLOWER PHILOSOPHY.

There are a number of things, however, it is best not to learn by experience.

During a hot summer some of the handkerchiefs carried by men look mighty tough.

Some men never settle down until the earth is carefully tamped and sodded above them.

When a man loses he says he "just plays for amusement." But he isn't amused; he is mad.

From your effort of thinking of something to say, spare a little time to think what not to say.

What is there more helpless looking than a church social before the patrons have begun to arrive?

Here is a rule that will not fail once in a hundred times: Be polite to a boy, and he'll be polite to you.

If you want to make trouble for the most envied person on earth, tell him he is seeing his happiest days.

A woman comes pretty near being an ideal wife if her dry goods bills are never as large as the bills for eating.

Nine in ten who telephone take this for granted: "I do not have to tell who I am for every one knows my voice."

When a young man dies you hear of at least five girls he intended to marry, and who were greatly shocked at his death.

The women's idea of a "hard and unfeeling" man is one who does not look sad when some girl gets up and screeches "Home, Sweet Home."

Amateur ball players do a great deal of talking about a game after it is over. Professionals don't; after a game they try to get a little sleep.

If occasionally happens that a man tries to be nice to every woman through a desire to make a better showing of friends than his enemy.

If a man will take a frank look at his past foolishness he will go out and spread himself as a door mat before his own front door.

How careless people are! We saw a man in a store this morning buying a pair of suspenders, who said he had been trying to think of them for two years; he had needed a pair for two years, but always forgot, when down town to buy them. Is it any wonder that this sort of a creature occasionally forgets to kiss his wife before leaving the house in the morning?

A new popular wedding song is entitled "If I But Knew." Heavens, that is why the ceremony goes on; because neither one knows.—Atchison (Kan.) Globe.

## HONEST LAWYER?

IDA VON CLAUSSEN TRIES NEW TRICK TO GAIN COUNSEL IN \$1,000,000 CASE.

### "SUIT" REJECTED BY THE CLERK

He is Forced to "File" it in Safe When She Threatens to Have the "Law on Him" in the Case of Refusal.

New York, June 29.—Ida Von Clausen, once the wife of Dr. William Francis Honan, whose coming to America to sue Theodore Roosevelt and other notables was announced from Paris a few weeks ago, appeared at the county court house last afternoon with a complaint which she insisted on filing in the county clerk's office.

Her complaint charges Theodore Roosevelt, Robert Bacon, ambassador to France; Charles Graves, minister to Sweden, and Mrs. Alice C. Graves, his wife, with slander and conspiracy. She declares that through the machinations of these distinguished persons she was deprived of a royal marriage with Prince Eugene, of Sweden, and an audience with King Oscar. Wherefore she demands \$1,000,000 damages.

She explained that she had been unable to get a lawyer to take her case, but added, exultantly, that she had now stolen a march on them all, for having filed her complaint, the courts would have to provide counsel for her.

The first paragraph of the petition began: "I hereby make formal complaint to the supreme court of the United States to procure for me an honest lawyer to plead for justice for me if the United States has laws capable of protecting me; if not, then legislation must be appealed to."

When the clerk had read thus far he called the woman back and told her she could not file such a document in the supreme court, New York county, but to no avail.

The clerk insisted that the paper had not been filed and he scratched off the stamped filing number. He said the paper had no place in the county clerk's office and asked her to please take it away.

Mrs. Von Clausen said that if the clerk did not file it she would have the law on him, too, and flitted out of the office. Then the clerk looked up the document in the safe.

### Refused Interview By Roosevelt.

Washington, June 29.—After having failed to be presented at the court of the king of Sweden, Mrs. Von Clausen came to Washington in April, 1907, to lay the matter before President Roosevelt. She tried to arrange an interview with the president, but found the official bars too tightly closed to permit her entrance to the president's presence.

She remained here for some time, expressing the belief that she would secure satisfaction for the snub which she said had been administered to her by Charles H. Graves, minister to Sweden, at the time she sought a court introduction.

LAUGH EVERY MINUTE

A Feminine Necessity.

"Oh, John dear," cried the breathless wife as she appeared at the family residence just as the cook had returned the soup to its kettle. "I've found such a hard time of it. I've been shopping all day, and the stores were terribly crowded."

The husband uttered a few commonplaces as he wondered how large a total the bill of the day's purchases would have.

"You see, dear," continued the weary woman, "it was the first pleasant day in a fortnight, and it was very necessary for me to do some shopping. I didn't have anything to get but two yards more of that chaille I bought the afternoon you went with me—you remember?"

"You bought them at Jones' around the corner," said the husband. "I suppose they were all out of it."

"Oh, I didn't go there until I'd been everywhere else," she explained. "I told you I wanted to do some shopping—but there, men never understand such things."

Deep down in the bottom of his heart he agreed with her. — Boston Traveler.

**NO MORE GRAY HAIRS**

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit. The present generation has the advantage of the past in that it can get a ready to use preparation called Wyeth's Sage and Sulphur. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers and it can be bought for 50 cents and \$1 a bottle at almost any first-class drug store, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by W. E. Bard Drug Company.

### THE CHAUTAUQUA MOVEMENT.

It is one movement that deserves and should have the hearty support and active co-operation of all our progressive people. It is no creed. It has no sectarianism. Upon its broad and liberal platform the brightest and best men and women of the nation appear. Thousands are challenged to the higher life by the messages that come from the lips of people who have made the world better by their having lived and wrought in it. On this platform the greatest readers, orators, speakers and lecturers stand. On it reform has found her ablest advocates; Literature her finest expression; Progress her bravest pleaders, and Humor its happiest translation. By it the horizon of our life is extended. By it our opportunities are revealed. We are inspired to higher living and greater achievements by being brought into personal contact with these famous people. Inspirational addresses, transcending music, wholesome entertainment and beneficial instruction are all happily combined in the Chautauqua.

### \$2.50 SEASON TICKETS FOR \$2.00.

Previous to July 1st, season tickets are placed on sale at the reduced price of \$2 for adults and \$1 for child's. All tickets purchased previous to this date may be secured at the reduced rate.

Costs about 7c per session to take in all of the big attractions on the "best Chautauqua program in the west"—on the season ticket plan.

No tickets will be sold by the Chautauqua management after July 1st at less than the regular rate of \$2.50 for adults and \$1.25 for child's. This will be the last year that the \$2 tickets may be secured. Act promptly if you wish to take advantage of the reduced price.

No other movement offers the public so much at such a trifling cost. A \$2.50 ticket secures as much as could be purchased for five times that amount in the regular way. No one can afford to miss the great opportunities that such movement brings to our very doors.

### LAST OPPORTUNITY TO BUY \$2 TICKETS.

Practically all other assemblies outside of the Bartell circuit have this year materially advanced the price of their season tickets, and many western assemblies presenting very ordinary programs and operating only seven-day assemblies are getting \$3 for season tickets. We are building the best Chautauqua programs in the west, a program that includes the greatest musical attractions that have ever appeared at any Chautauqua, and all of this may be secured for a \$2 ticket—if you act promptly. Chautauqua attractions are commanding 50 per cent more for their services than they received three years ago. The season ticket price will have to be advanced. The very existence of the Chautauqua makes this imperative. We will not economize by cheapening our programs, and this is the last year that you will have an opportunity of buying the \$2 tickets for our assemblies. Act promptly if you wish to take advantage of the reduced rates.

### GREAT TRADE IN TOYS.

Millions of Dollars Worth Imported Every Year.

Over fifty million dollars' worth of toys have been imported into the United States during the last ten years. During the same period something like five million dollars' worth of toys were exported.

During the last fiscal year the high water mark has been reached in so far as export trade in toys is concerned. The total value of exported toys during that time has for the first time exceeded a million dollars.

The value of toys imported has fallen somewhat since 1908 when the total value of imported toys was \$7,250,000. This year, according to the independent figures, the figures were \$5,000,000 in round numbers.

Toys are very largely "made in Germany." That is to say Germany is by far the largest source of supply in the United States. The little German town of Sonneberg in the Duchy

of Saxe-Meiningen on the Rothen, is perhaps the largest toy manufacturing center. In addition to its summer resort business it has been credited with the annual production of some 24,000,000 toy units, having an aggregate value of \$4,000,000.

Nuremberg and certain other sister cities are also to be reckoned with as toy makers. The value of toys imported into the United States from Germany in 1908 was \$6,500,000, out of a total of \$7,500,000 imported that year. Some of the other toy contributing countries in 1908 furnished toys valued as follows: France, \$180,472; Austria-Hungary, \$179,417; Japan, \$177,720; Belgium, \$61,551; and the United Kingdom, \$57,725.

A recent traveler in the land of dikes and windmills has been at pains to make notes of the names bestowed by the Dutch merchants upon their country houses. Here are a few examples translated: "Our Contentment," "Joy and Peace," "Leisure and Happiness," "My Desire is Satisfied," "Friends and Quiet," "My Wife and I," "Not So Bad." To say the least, any one of these would seem to indicate more of the genuine sentiment of the householder than can possibly be expressed by the "Belle Vue" and "Cedars" of Suburbia.

## LOOKS VERY GOOD

DEMOCRATS EXPECT TO CARRY MISSOURI THIS FALL BY 50,000 MAJORITY.

### TIRE OF HIGH PRICES FOR LIVING

The Party That Has Always Labored in the Interest of the Trusts Likely to Receive Hard Jolt in November.

Plattsburg, Mo., June 28.—If the enthusiasm, good attendance and attention which marked the session here Saturday of the democratic editors of the Third congressional district is any indication of what is going to happen in Missouri next November, then the democratic ticket will sweep the state by an old time majority of 50,000.

James A. Reed, of Kansas City, and David R. Francis and Sterling P. Bond, of St. Louis, the three rival aspirants for the senatorship, attended in response to invitations to address the editors.

The coming of the candidates had been well advertised by local democrats, and many farmers were present and heard the speeches. The intention to hold the meeting in the editorial sanctum of the Clinton County Democrat was abandoned because of the crowd, and the large circuit court room was used instead.

Two sessions were held, Editor E. W. Stephens, of Columbia, and Labor Commissioner J. C. A. Hiller, candidate for railroad commissioner, speaking in the forenoon, and the senatorial aspirants after dinner. The temperature in the building during the afternoon meeting was close to the 100 mark, but every seat was taken and many gathered at the doors and anterooms.

Each of the senatorial candidates was roundly applauded during and at the close of their addresses. The utterance of Labor Commissioner Hiller, who made an old-time democratic speech, was eagerly listened to and well received.

It is an unusual thing for farmers to flock in and listen to speeches intended solely for editors, and especially at the beginning of the wheat harvest, but this is what they did here, and the way they received the democratic addresses plainly shows what they intend to do this fall—vote the democratic ticket from top to bottom.

Among the editors present were: L. E. Sharp, Altamont Times; A. J. Summers, Smithville Herald-Democrat; J. D. McDaniel, Gainesville News; W. L. Robertson, Gallatin Democrat; A. R. Alexander, Plattsburg Leader; F. G. Klepper, Jr., Lathrop Optimist, and D. A. Brakeman, Gower Enterprise.

R. N. Napier, of Hamilton, former secretary of the democratic state committee, mixed with the editors in the interest of former Governor Joseph W. Folk's presidential candidacy.

### MOTHER POISONS BABIES

Woman Who Twice Tried to Kill Children Held Insane.

Galesburg, Ill., June 29.—Tuesday afternoon Mrs. W. L. Macee, a young widow who came to Galesburg two years ago from Canon City, Col., gave her two little children "rough on rats," but later saved them by giving them an emetic.

At 3 o'clock Wednesday morning she gave them another dose and then set fire to their bed. Neighbors saw the flames and, giving the alarm, got the children and the woman from the house in time to save their lives.

Mrs. Macee then confessed that she had poisoned the children and again prompt action saved their lives, although for a time their condition was dangerous. She could not tell why she had thus acted, and last afternoon a commission of doctors pronounced her insane. She will be taken to Watertown.

### AUTO INVADING THE FARM

Fifteen Millions Expended in Four States for Machines.

St. Joseph, Mo., June 29.—Fifteen million dollars spent for automobiles and more than \$18,000,000 sent elsewhere for the purchase of land, tell what the west is doing with some of its money, according to information compiled by Graham G. Lacey, a banker of St. Joseph, who has obtained replies to a series of questions addressed to more than 600 bankers in Kansas, Nebraska, Missouri and Iowa.

Reports from 251 banks show that approximately \$18,000,000 had gone out of their section for the purchase

of lands in other states and 334 banks reported that a heavy amount had gone out of their section for such purpose, but they could not give an actual estimate.

For automobiles, 427 banks report a total of \$15,000,000 was expended.

### FIRE RATES TOO HIGH

Sweeping Reductions Effective July 5 Ordered By Board.

Austin, Tex., June 29.—The state fire rating board yesterday gave a decision to the effect that the fire insurance rates in Texas are unreasonably high, and ordered sweeping reductions, to become effective July 5th.

Mercantile risks are reduced 25 per cent and the rates on dwellings are reduced from 5 to 15 per cent. A reduction of 15 per cent is made on special hazards.

This action of the board comes as a surprise, in view of the call which Gov. Campbell issued a few days ago for a special session of the legislature, to convene July 19 for the special purpose of repealing the fire rating board law.

### DOWN AND OUT.

Carl Brickert sat huddled on a cold dark bench near the edge of the lake. He was down and out. His thin, pale face, blue lips and wild, brilliant eyes, his frayed clothes and tattered shoes, voiced aloud to anyone who gazed upon him, his pitiable condition. The frosty lap of the waves on the beach beckoned him insidiously. One plunge and the struggle, the heart-breaking attempt to keep body and soul together, would all be over.

He glanced around cautiously through the increasing darkness. Save for another man, apparently in about as bad shape as himself, some distance from him, there was no one about. Brickert rose from his seat, his bones aching from the cold and hunger, and approached the lake. As he neared the water he gave another glance at the other man and was surprised to see that he was hurrying toward him. Fearing that his attempt upon his own life might be frustrated, Brickert tore toward the lake. He raced out upon a little pier, which extended into the lake, with the intention of plunging into deep water. When almost at the end of the pier he heard the pursuing man call to him and he involuntarily stopped.

"Hey," came the voice, harsh and rather weak. "Don't do that!" Brickert turned angrily on the newcomer and saw a man, almost as emaciated and forlorn looking as himself. "Who are you?" Brickert cried, and started to plunge over.

The other man caught him. Brickert struggled violently. He was somewhat bigger than the other man, but did not fight with the desperation the other displayed. There was something frantic in the way he heaved and fought. Weak he undoubtedly was, cold and probably nearly starved but still frenzy imparted a strength to his muscles which finally forced Brickert to the floor of the pier. Then, while the man sat on Brickert's chest the two had a brief breathing spell.

"What—what do you want?" Brickert gasped. "I haven't got anything—I haven't done anything. What do you want? Who are you?"

"Never mind who I am," gasped the other. "I know what you want to do—you want to kill yourself and I'm not going to let you do it!" he cried, with a set face and deep purpose mirrored in his eyes.

"Why not?" questioned Brickert.

"What is it to you whether or not I kill myself?"

"Never mind," repeated the other.

His words were cut short, for with a sudden, unexpected movement Brickert threw the man off and dashed for the edge of the pier. Again the other man caught him and for a while they fought desperately in the darkness.

Their weakened constitutions, however, were soon tired by the struggle, and finally they desisted and sat side by side on the pier. Then Brickert spoke up.

"You needn't try to stop me any longer," he said. "This fight—this struggle, has made me see that I can still scrap. I may be down and out but I'm going to struggle to the end."

"Slip it there, old fellow," said the other. "I was in the same boat when I saw you about to kill yourself. I thought I'd have one good fight before I followed you and now like you I'm going to keep on scraping to the end."

The couple struggled to their feet, and arm in arm, they staggered weakly through the park toward a big electric light which announced an ugly brick building as a "Salvation Army Citadel."—Frank H. Williams.

### The Safest Place.

A British railway train is the safest place on earth, as only one passenger in every 70,000,000 is killed and one in every 2,300,000 injured. This deduction is based upon a careful survey of the Board of Trade report on railway accidents during the year 1907. Last year the number of fires in trains amounted to 170, but it should be explained that many of these were of the most trifling description. It is a significant fact that if the number of fires reported not a solitary one occurred either directly or indirectly through a lightning flash. It would appear that for some reason railway trains are practically immune from the disastrous effects which usually marked the track of a violent thunderstorm.

What is the explanation of this fact? In reply we are told, first, that the telegraph poles alongside the railway provide a measure of protection to passing trains. These poles are usually spaced three chains, or 66 yards apart, and on each pole is stapled a thick galvanized-iron wire, projecting about six inches above the pole-top and terminating five or six feet below ground. This earth wire, as it is technically known, tends primarily to prevent conduction between contiguous wires, but there can be no doubt that it also serves as a lightning conductor, and that, too, in a very efficient manner.

Further, it is contended that the pieces of iron work scattered over the roof of a train constitute a conductor to act as a safeguard against the injurious effects of atmospheric electricity.—Railway Magazine.

Thief Takes Month's Pay from Pocket of Charles F. Boher.

St. Joseph, Mo., June 29.—A bunch of crisp bills, fresh from the United States mint at Washington, which Representative Charles F. Boher, of the Fourth Missouri district, was bringing home, was taken from his trousers pocket on board a Burlington train yesterday.

Congressman Boher does not know his exact loss, but thinks it is a month's pay. He borrowed the price of a meal and journeyed home to Savannah on a railroad ticket the thief had overlooked.

### Saloon Thought No. 428

"SUNSHINE IN KANSAS."

So Much Prosperity the State Has Few Paupers, the New York Mail Says.

New York, June 27.—Under the caption "Sunshine in Kansas," the New York Evening Mail says editorially:

If there really is anything the matter with Kansas it is probably an excess of prosperity. There is no evidence to show that such a condition is injurious, but if it ever should turn out to be so, the demonstration probably would be made in the Sunflower state. This belief is based upon the facts set forth in a report filed by the state board of control on June 20.

According to that document there are at this time only 512 paupers in the entire state. Twenty-eight county poor farms have no tenants whatever except their official caretakers. Fifty-three counties have no prisoners under sentence in their jails, and thirty-four other county jails contain no inmates of any description. For a state with a population of approximately 1 1/2 millions this showing as to the absence of poverty and crime is one which older American commonwealths will contemplate with mingled amazement and envy.

The above is a clipping from Monday's Kansas City Star. The brewers and saloon keepers call those Kansas folks all fools, because they don't spend \$25 with them and let them give them back \$1, like they do us. Sedalia spends at least \$350,000 in her saloons to get \$18,000 back, and we can't be prosperous without it, to hear the "caterers" tell it.

## NEWS OF THE RAIL

### DECISION IN COAL RATE CASE AGAINST THE MISSOURI PACIFIC RAILROAD.

### COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

The supreme court yesterday in a decision in the case of James C. McGrew, a coal operator of Lafayette county, against the Missouri Pacific railroad, held that railroads can not under the Missouri statutes charge more proportionately for a short haul than for a long one.

McGrew charged in his suit that the Missouri Pacific discriminated against him in the matter of coal rates in violation of the statutes regulating the charges on long and short hauls of freight and passengers. He got a judgment for \$7,642.

Division No. 1 divided upon this case and Judge Willard C. Hall, of St. Joseph, was appointed a special judge and wrote the decision, which was concurred in by three members of the court. Judges Gantt, Valliant and Lamm concurred. Judges Fox, Burgess and Woodson dissented.

The railroad attacked the constitutionality of the laws relating to discriminations, but the decision of the court settles the point until the legislature takes up the subject again.

### Auto Train of 61 Cars.

The Wabash yesterday afternoon handed out of Detroit for Chicago, St. Louis and points west a solid train of sixty-one car loads of automobiles, drawn by two powerful locomotives.

The development of the automobile industry at Detroit is shown in the fact that last year \$60,000,000 worth of automobiles were shipped from that city over different lines east and west.

## A DRY STATE, SURE

JUDGE W. H. WALLACE FILED AT CAPITAL MORE PROHIBITION PETITIONS.

### ENTHUSIASTIC OVER OUTLOOK

The Anti-Liquor Party Now Has Completed Its Work in the State Outside of St. Louis and Will Push Campaign There.

Jefferson City, June 29.—Judge William H. Wallace filed a large bundle of prohibition petitions with the secretary of state yesterday, representing approximately 9,800 names of persons who are stated to be legal voters.

Judge Wallace had already filed petitions containing about forty thousand names in round numbers. He says the petitions are still coming in and when he files the last consignment, which will be either July 6 or 7, he believes it will add between ten thousand and twenty thousand additional names.

Scattering petitions have been sent to the secretary of state from time to time, so there are now more than fifty thousand names on file.

"Constitutional prohibition will certainly be adopted by the people of Missouri next November," Judge Wallace said. "I firmly believe just what I have said."

"Do you believe Kansas City will vote in favor of constitutional prohibition?" he was asked.

"That city is certain to vote that way," he replied. "Kansas City people are tired of the liquor interests meddling in the politics of both the large political parties, tired of the politicians who go to the brewers and distillers for their orders, and they realize now, more strongly than ever before, that the only remedy is state-wide prohibition."

"We are well organized at Kansas City, and we are effecting a good organization in St. Joseph. I am not offering any predictions just now as to St. Joseph, for I am not so familiar with conditions there as at Kansas City."

### China in Iron and Steel.

Imagine a river connecting our Lake Superior ore deposits with Pittsburgh, a river navigable to tow boats and barges, another similar river suited for bringing down coal and coke, and a river navigable to oceangoing vessels connecting Pittsburgh with tidewater, and one has a rough sketch of the position in China. The Yangtze-Kiang river, on the Yangtze-Kiang river, navigable to large oceangoing steamers. The 60 per cent ore is towed 200 miles down the Tayeh river to the Hanyang works, and coal is towed 200 miles down another river to the works.

Erection of the plant was started in 1891, the original plan being that of using ore from a point some 75 miles down the Yangtze-Kiang river, with coal mined near the plant. The coal proved unsuitable for smelting, and the present system has supplanted the original. The works are nothing from the American standpoint, producing only about 500 tons of pig-iron daily, while the duplex steel plant involves two 15-ton converters, now being installed, with four open-

hearth furnaces, making about 250 tons of steel ingots daily.

While very little, relatively, is known of the geology of China, enough is known to make it obvious that there are vast possibilities. We used to be amused by the tales of American and British engineers who had had experience with Chinese methods and Chinese labor. The ridiculous "inefficiency" of the labor and the adherence of the people to weird traditions incited our risibilities, but those are things which can change.—Iron Trade Review.

## SUMMER HAIR DRESSING

Ask W. E. Bard Drug Co. for Parisian Sage, if You Want the Best.

Almost everybody in Sedalia knows that there is no preparation for the hair that can compare with Parisian Sage.

It cures dandruff, stops falling hair and itching scalp in two weeks or money back.

It puts radiance and lustre into that dull, lifeless hair that many women possess, and does it in a few days.

It makes hair grow; prevents hair from turning gray and is without doubt the most refreshing and invigorating hair tonic in the world.

It is daintily perfumed and is not in the least sticky or greasy.

In summer, people of refinement use it regularly, because it keeps the scalp cool and free from odor of perspiration.

On March 25, 1910, Lulu D. Fix, of Raphine, Va., wrote: "Parisian Sage is a wonderful hair restorer; it stopped my scalp from itching; also cured the dandruff. I only used one bottle, but I like it so much I am going to use more."

Parisian Sage is sold by druggists everywhere and by W. E. Bard Drug Co. for 50 cents a large bottle. Mail orders filled, charges prepaid, by American makers, Giroux Mfg. Co., Buffalo, N. Y.

Dusseldorf, Germany, June 29.—Count Zeppelin's airship, the Deutschland, had an accident yesterday which for a time promised to be as serious as has yet befallen the big craft when, with ten men as a crew and twenty passengers, it was driven before the wind helplessly for several hours.

The famous aeronaut's model lies on top of the Teutobergion forest, pierced with pine tree stems, a mass of deflated silk and twisted aluminum.
